

Art Terrazzo

Marble chips and fragments inserted into a cement base are designed to create a slight, but intense speckled effect. This results in a delicate, natural effect on the surface of the porcelain stoneware which is well-suited to contemporary contexts and to fast application needs.

Suitable for every room in the house, for commercial locations and outdoor areas, Art Terrazzo creates an elegant reference to the past in modern, minimalist spaces with concentrated optical effects and equally fascinating contrasts.

Available in a Matt surface, 4 colourways, several formats with P3 ratings, Art Terrazzo is a cultured union of past and present tradition and modernity.
